

# How to Draw Earnie

## STEP 1

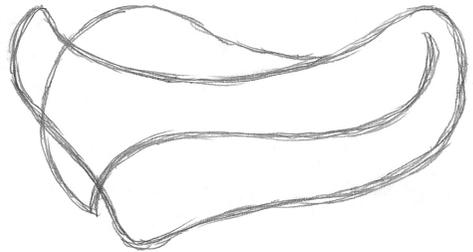

---

Start by lightly sketching the shape of Earnie's beak like this. It's a curved shape on top joined together with a triangular shape on the bottom.

## STEP 2

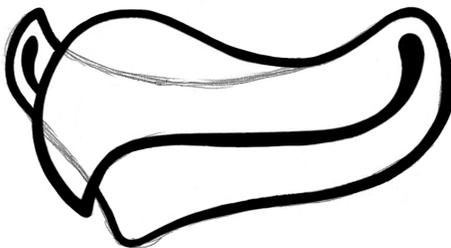

---

Now, lightly sketch in the shape of his beak. It's a couple of curved lines that meet at the end of his nose.

## STEP 3

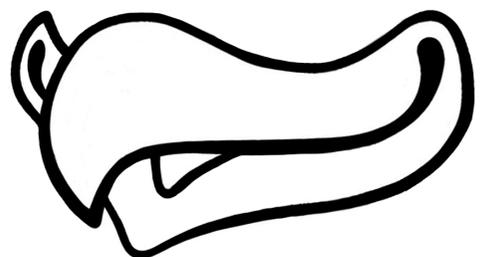

---

Using your sketch as a guide, outline Earnie's beak just like this. Don't forget to add in the other corner of his mouth.

## STEP 4

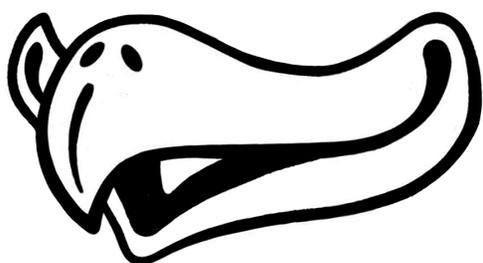

---

Carefully erase your sketch lines, so your drawing looks like this. Now you can add his tongue. It's a small triangle shape.

## STEP 5

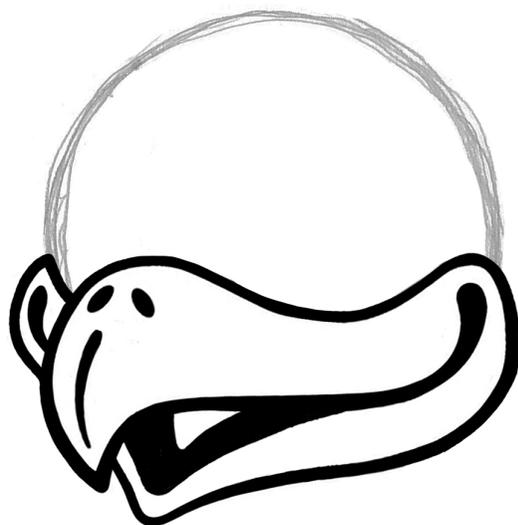

---

Finish Earnie's beak by filling in his mouth around his tongue. Finally, draw his nostrils using 2 very small ovals & a curved line at the end of his beak.

## STEP 6

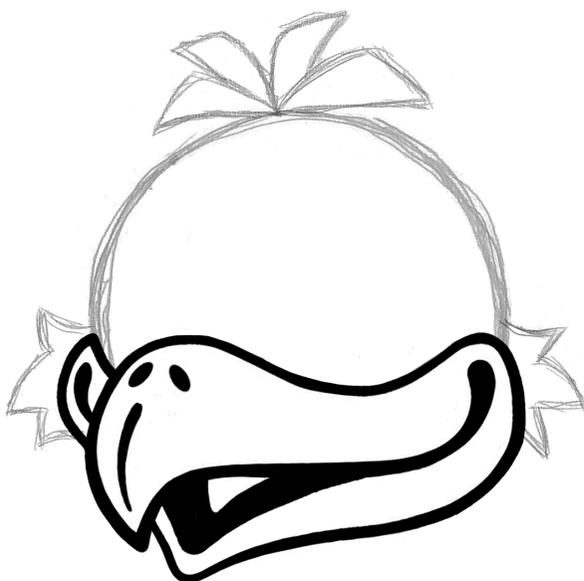

---

Now, lightly sketch in the top part of his head with a half-circle shape like this.

## STEP 7

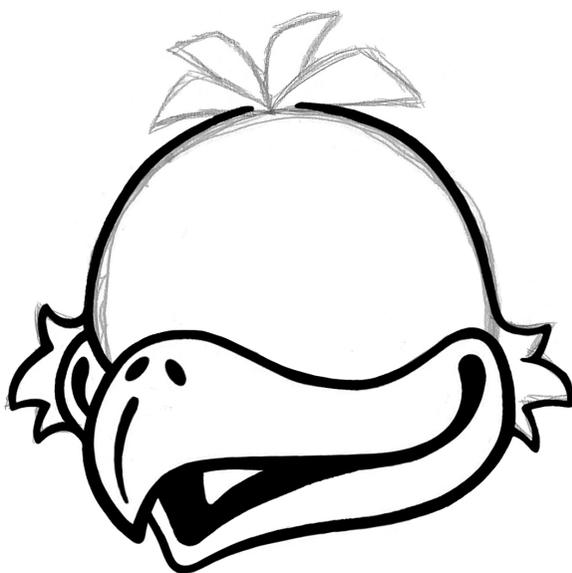

---

Next, you'll draw Earnie some feathers. Lightly sketch 4 flattened triangle shapes at the top of his head & 2 crown-like shapes on either side of his beak.

## STEP 8

---

Outline the sides of his head & his cheek feathers with darker lines like this.

## STEP 9

---

Now darken in the lines of the feathers on top of his head. Then, carefully erase your sketch lines.

## STEP 10

---

Draw Earnie's eyes using ovals. Use 3 ovals for each eye. Now, you can draw his eyebrows just like this.

## STEP 11

---

Finish Earnie by drawing his neck & shoulders. Just draw an upside down crown shape & 2 curved lines on the sides.

## STEP 12

---

Finally, go over your pencil lines with a fine-line black marker. Now you may color Earnie using this drawing as a guide.

**Congratulations on your drawing!**
