## STEP 1

Start by lightly sketching Chloe's eyes & nose using ovals. Draw 2 for her eyes & 1 slightly smaller oval for her nose. Arrange them just like this.
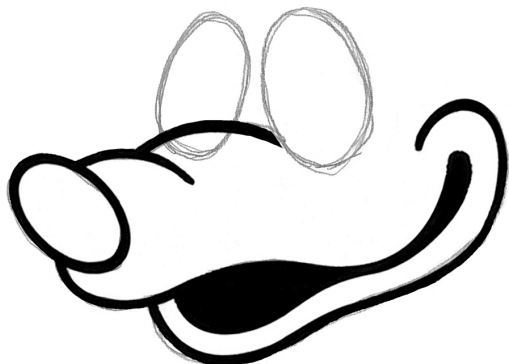

## STEP 2

Now, lightly sketch in the shape of her nose & mouth. It's 2 large curved lines below her nose & 2 short curved lines between her nose & eye.

## STEP 3

Using your sketch as a guide, outline Chloe's nose & mouth just like this. Don't forget to fill in her mouth.
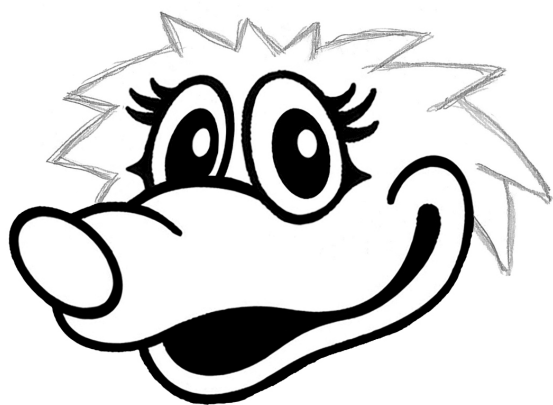

## STEP 4

Now, outline her eyes & add her pupils using 2 ovals each. Then, draw 3 eyelashes on each side & 2 small ones at the lower corners. Carefully erase your sketch lines.

# STEP 5

Let's give Chloe some hair! Lightly sketch some spiky, pointed shapes around her face just like this.

# STEP 6

Now, darken in your sketch lines & carefully erase any lighter lines that are left over.

# STEP 7

Next, you'll draw Chloe's tall ears. Lightly sketch the shape shown above. They look a lot like butterfly wings, don't they?

# STEP 8

Chloe needs bows for her ears! Just draw a couple of small, simple bow shapes at the tip of each ear.

## STEP 9

Now, darken the outlines of her ears. Add a couple of curved lines inside & make sure the bottom ends are a little squiggly.

## STEP 10

Chloe needs her necklace. Draw 4 small circles arranged like this & connect them with a few short lines.

## STEP 11

Finish by drawing a few short lines for her neck, then add the straps of her overalls and 2 more short lines for her shoulders.

## STEP 12

Finally, go over your pencil lines with a fine-line black marker. Now you may color Chloe using this drawing as a guide.
