

How to Draw Fancy

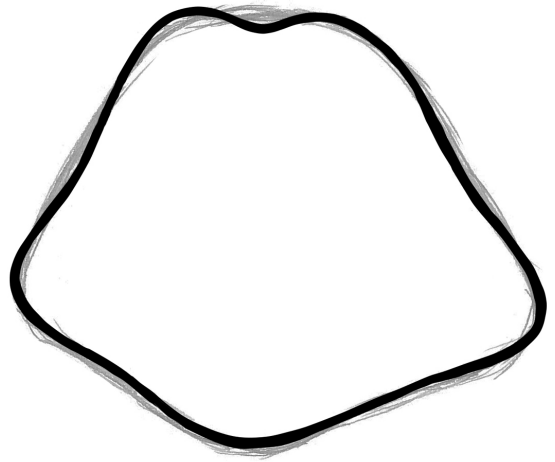

STEP 1

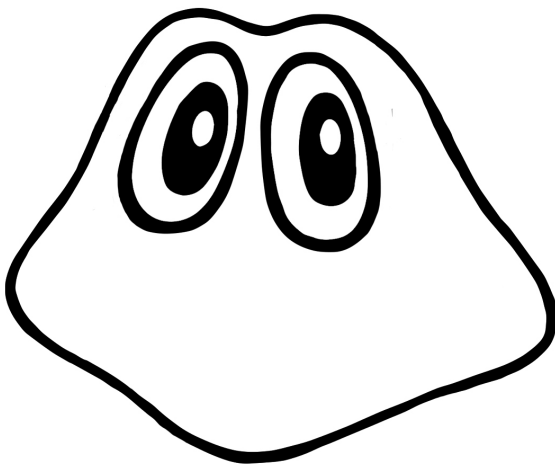

Drawing Fancy is easy! Start with her head by lightly sketching a 5-sided shape with rounded corners.

STEP 2

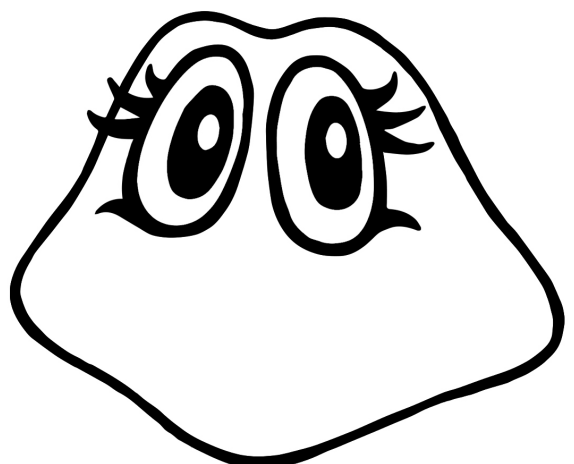

Now, darken the outline with a heavier line like this. Make sure each side curves in a little.

STEP 3

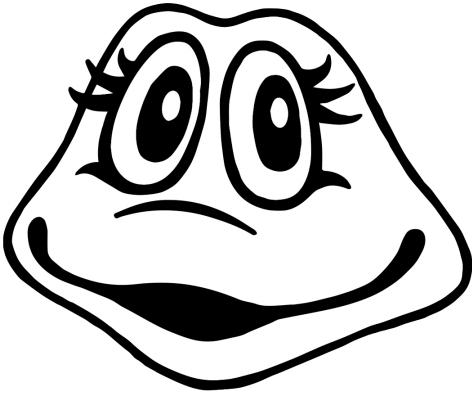

Once you've carefully erased your sketch lines, you can draw Fancy's eyes using ovals. Use 3 ovals for each eye.

STEP 4

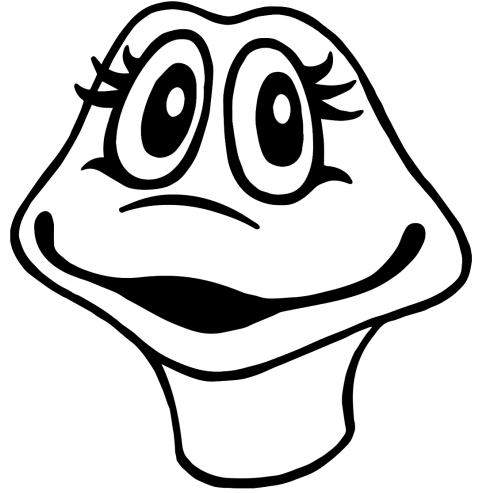

Fancy needs some pretty eyelashes! Draw 3 on each side of her eye & 1 smaller lash near the bottom of each eye.

STEP 5

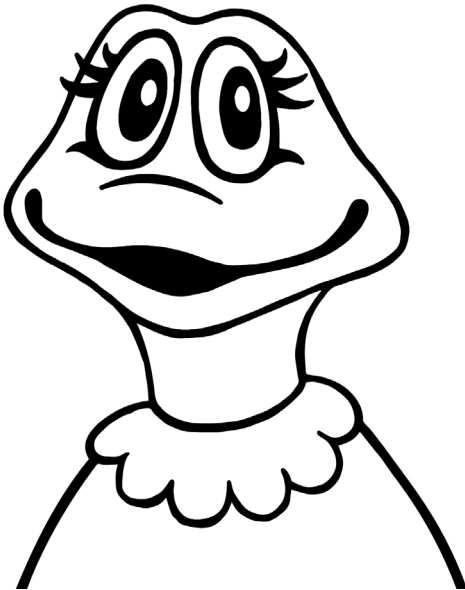

Draw her mouth using a big curved line like this. Then, draw a curved line below her eyes for her nose.

STEP 6

Now draw Fancy's neck. It's just 3 curved lines joined together. Make sure her neck is skinny.

STEP 7

Next you'll draw her collar. It's just 6 half-circles joined together. It looks kind of like a flower. Then, draw a couple of curved lines for her shoulders.

STEP 8

Finally, you can carefully go over your pencil lines with a fine-line black marker. Now you may color Fancy using this drawing as a guide.

Congratulations on your drawing!
