

How to Draw Penny

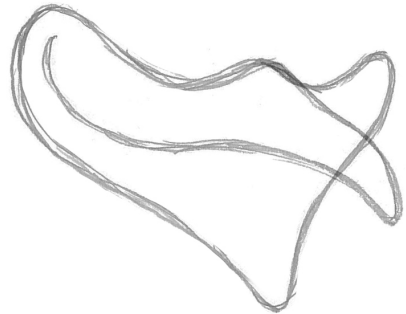

STEP 1

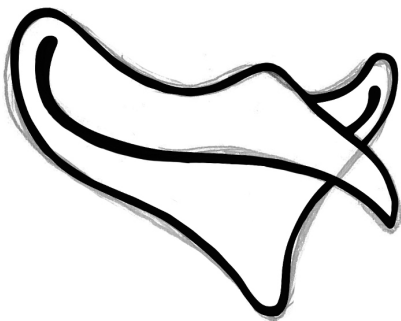

Start by lightly sketching the shape of Penny's beak like this. It's like a flattened "W" shape at top and a triangular shape on the bottom.

STEP 2

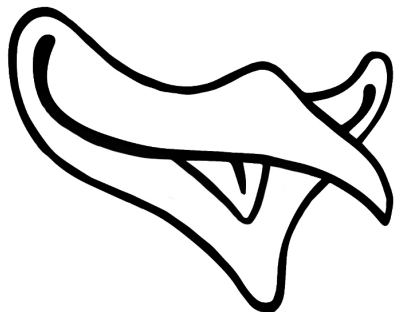

Now, lightly sketch in the shape of her beak. It's a couple of curved lines that meet at the end of her nose.

STEP 3

Using your sketch as a guide, outline Penny's beak just like this. Don't forget to add in the other corner of her mouth.

STEP 4

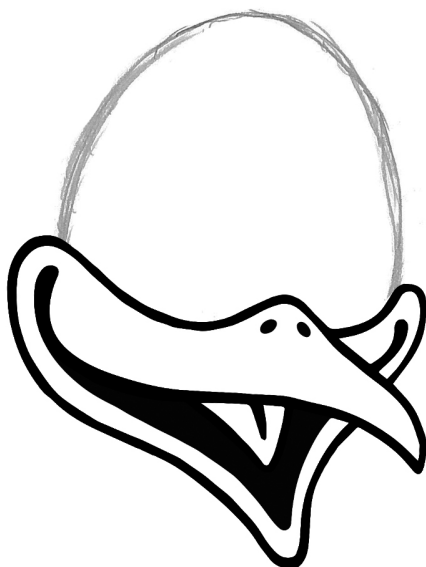

Now you can add her tongue. It's a small triangle shape with a line in the middle. Carefully erase your sketch lines, so your drawing looks like this.

STEP 5

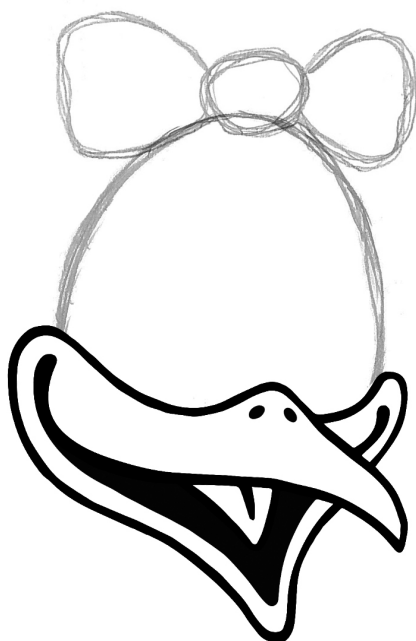

Finish Penny's beak by filling in her mouth around her tongue with another triangular shape. Finally, draw her nostrils using 2 very small ovals.

STEP 6

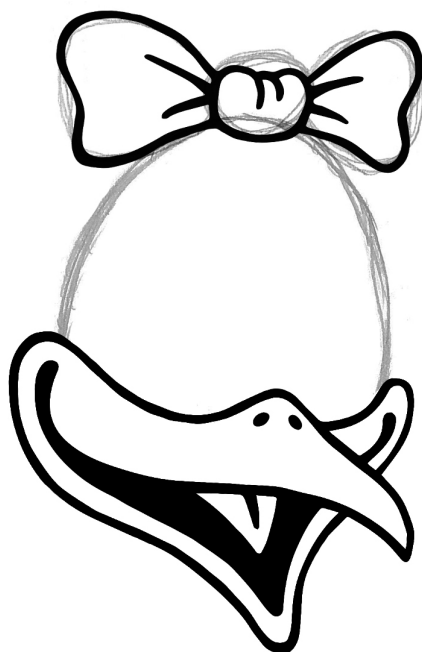

Now, lightly sketch in the top part of her head with a curved shape like this.

STEP 7

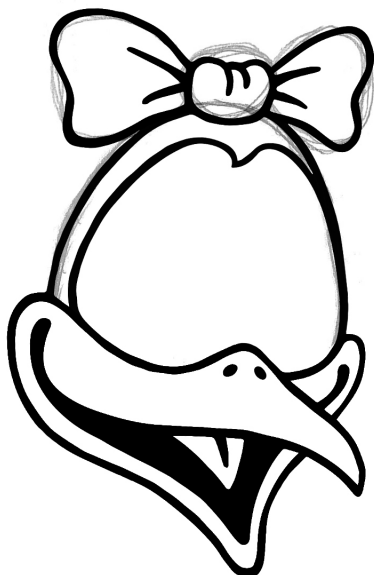

Next, you'll draw Penny's bow. Lightly sketch a circular shape in the middle & 2 rounded, triangular shapes on both sides.

STEP 8

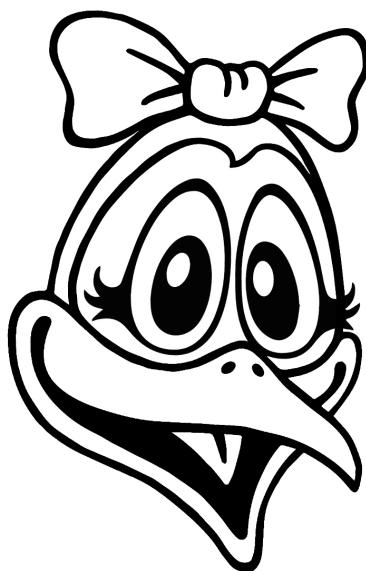

Outline the bow with darker lines like this. Add a few smaller lines for the wrinkles.

STEP 9

Now darken the lines on the sides of her head & draw a shape inside this for her face. Carefully erase your sketch lines.

STEP 10

Draw Penny's eyes using ovals. Use 3 ovals for each eye. Then, you can draw her eyelashes on the outside of each eye.

STEP 11

Finish Penny by drawing her neck & shoulders. Just draw 2 curved lines on the outside & 2 straight lines on the inside.

STEP 12

Finally, go over your pencil lines with a fine-line black marker. Now you may color Penny using this drawing as a guide.

Congratulations on your drawing!
