

# How to Draw Milo

## STEP 1

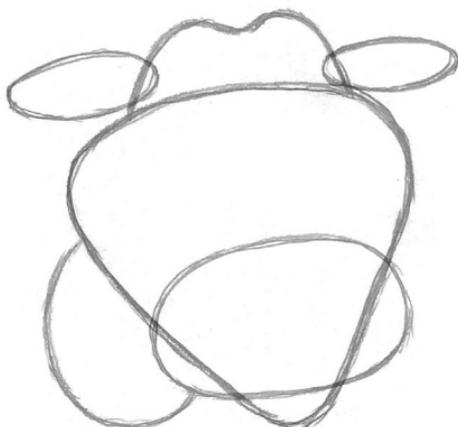

---

Start Milo by lightly sketching a rounded triangle shape with a flattened "M" shape on top.

## STEP 2

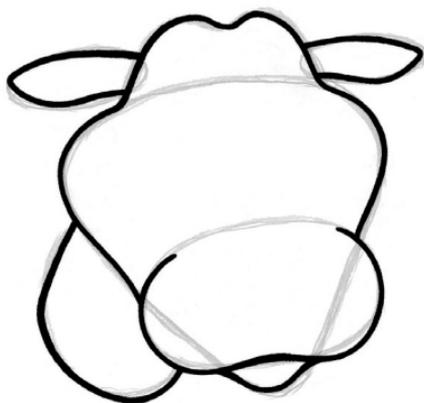

---

Now, lightly sketch an oval for his nose, 2 small, flat ovals for his ears and a half circle for his neck.

## STEP 3

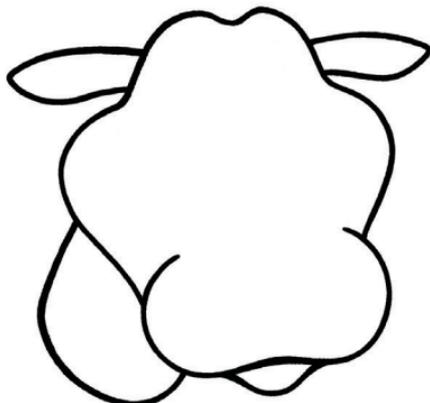

---

Using your sketch as a guide, outline Milo's head, ears, chin and neck with heavier lines, just like this.

## STEP 4

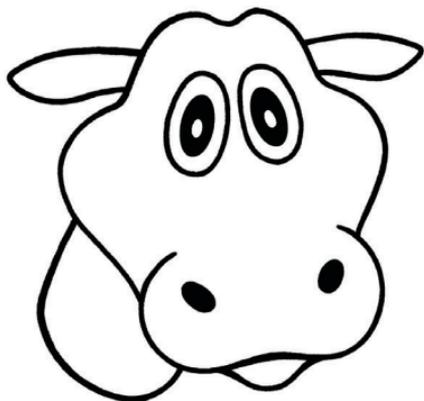

---

Carefully erase your sketch lines, so your drawing now looks like this. If you erased some of your heavy lines, just re-draw them.

## STEP 5

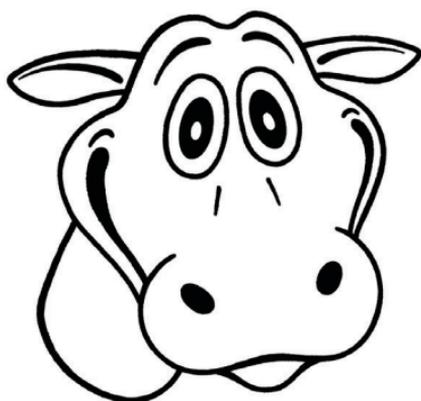

---

Now draw Milo's eyes and nostrils using ovals. Use 3 ovals for each eye and 1 for each nostril.

## STEP 6

---

Now draw Milo's mouth, his eyebrows and the lines inside his ears. Also draw small, curved lines at the corners of his mouth and 2 straight lines just below his eyes.

## STEP 7

---

Next you'll draw Milo's antlers. Remember there are 2 points above, 2 points below and 1 on each end. Finish this step by drawing his shirt collar.

## STEP 8

---

Finally, you can carefully go over your pencil lines with a fine-line black marker. Finish Milo by coloring him, using this drawing as a guide.

**Congratulations on your drawing!**
