

THRILLING SPY STORIES

BLUE BUCKS[®]
ADVENTURES

FALL 2021

Make Your Own Fancy Blue Diamond

Hey, kids! Are you ready to make your very own Blue Bucks® Fancy Blue Diamond? Here's what you'll need before you get started:

- Scissors
- White Glue or Glue Stick
- Tape
- Construction Paper (any color)

First, cut out the diamond, diamond top and nameplate from the enclosed insert. Now, take the diamond and fold along the blue lines. Once your folds are done, assemble your diamond by gluing the long triangular tab to the opposite side. Let the glue dry before continuing. Next, glue one tab to one side of the diamond top and let dry. Repeat this step for each tab as you glue the top of the diamond down. Be sure to let the glue dry after gluing each tab! Use the photo of the finished diamond as a guide.

Once you've finished, cut a piece of construction paper that's 4" long and 1" wide. Tape the two short ends together to form a ring. This will be the stand for your diamond. Glue the nameplate to the stand. When your diamond is dry, you may now place it in the stand so it sits upright, just like the photo below.

Do you have a printer at home, and would like an even BIGGER diamond? Visit the Blue Bucks Fun Zone at capfed.com and download either the 8.5" x 11" large or 11" x 17" extra large diamond pages. Just print them out on some thin cardstock and follow the directions above.

BLUE BUCKS® ADVENTURES

Fellow Blue Bucks® Agent:

Everyone at the Blue Bucks® Bureau of Savings Security (BBSS) would like to applaud you for your laser-sharp focus on your savings. We admire your determination, and we appreciate your knowledge and understanding of how saving your money can help you in the future.

Mr. Milo, Chief of the BBSS, has personally promoted you to a True Blue® Agent with a special task that he believes only you are fit for. Included in this CONFIDENTIAL memo are blueprints for an exact replica of Fancy's Flawless Blue Diamond - a priceless artifact kept under 24/7 surveillance. We've received an anonymous tip that the jewel may be targeted in an upcoming heist planned by Petty Thief Penny.

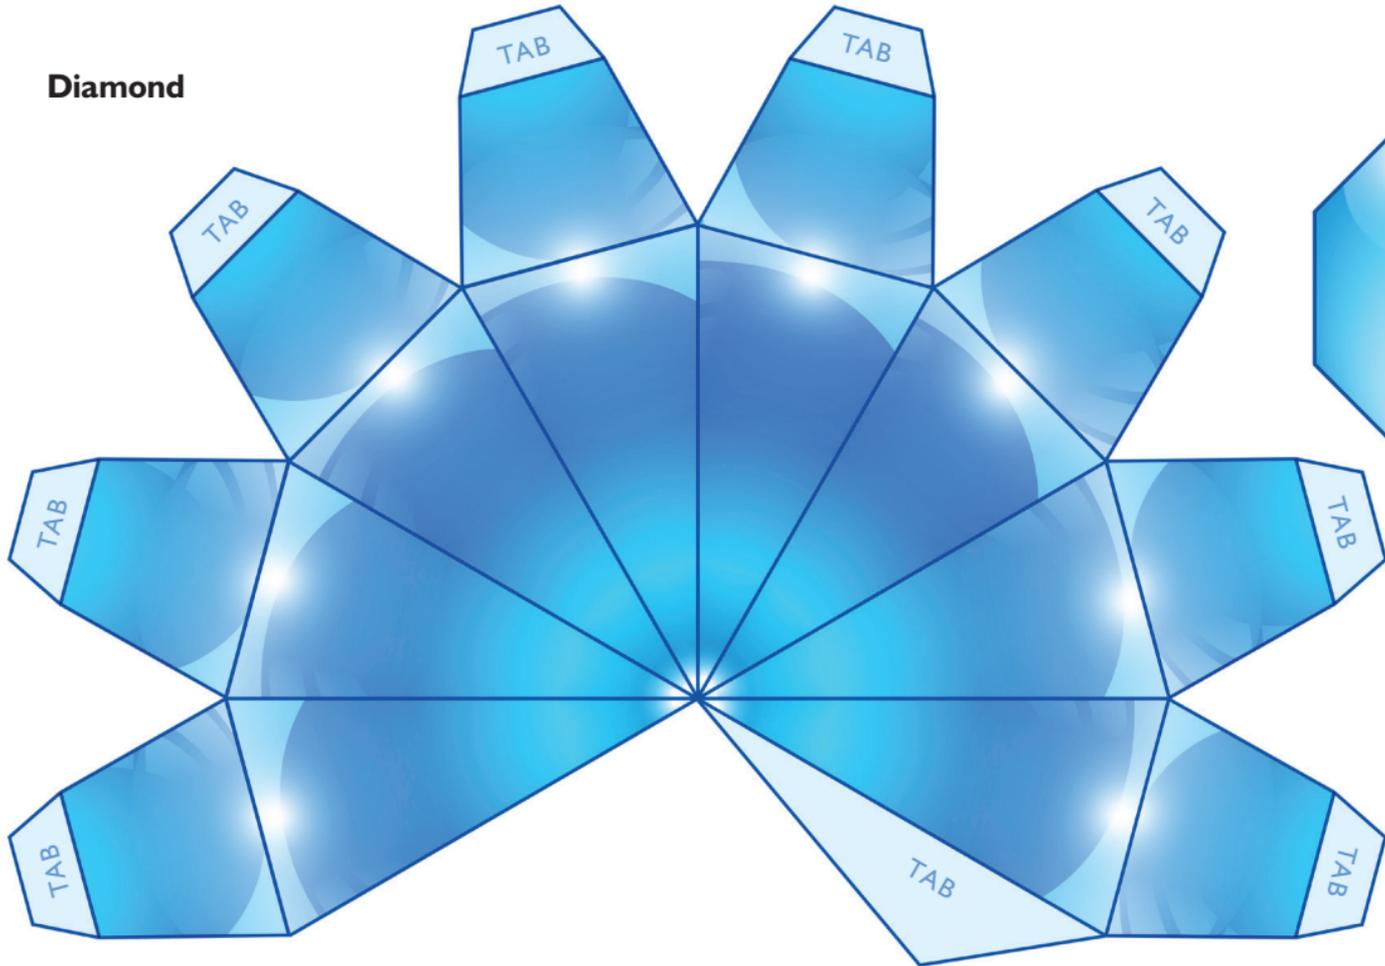

We need you to build the exact replica model of the diamond and practice retrieving the jewel to prepare for Mr. Milo's mission. In order to prepare for the obstacles that overload the path to the diamond, build a fort to surround the artifact and practice sneaking in without tipping off (or over) the security structures!

And remember agent, your determination and consistency are what brought you here. Keep saving, and keep practicing.

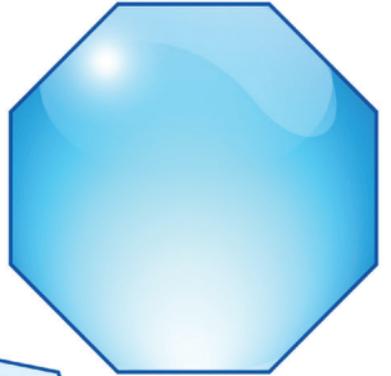

Agent Milo... Out!
