ADVENTURES

WINTER 2020

BLUE BUCKS

ADVENTURES

Hey there Blue Bucks® savers!

I hope your new year is going well and that you're gearing up for these last few weeks of winter. Don't fret, the frosty air nipping at your nose will soon be gone and replaced by the cool breezes and sunshine of spring!

In this issue of Blue Bucks Adventures, my friends at Capitol Federal® included a hot cocoa recipe and step-by-step

instructions on how to build a marshmallow snowman for you and your family to enjoy and remember the snowy days of winter gone by. The Blue Bucks crew always get together after the holidays to share a rich cup of cocoa and discuss our goals for saving in the New Year. Perhaps you received a few dollars as a gift during the holidays, or earned some shoveling snow this winter. Either way, it'll be good to save some of your money for later on in 2020 and beyond.

As the winter season comes to a close, don't forget to keep adding a little to your Blue Bucks account each month. Much like the tulip bulbs planted in the fall months, your savings account will continue to grow on its own. Before you know it, you'll have a bountiful bouquet of funds!

Until next time!

Milo
